WORK EXPERIENCE

Web / API / Mobile App Developer

Srisoftwarez, Sivakasi | Jan 2024 – Present

- Developed dynamic web applications using PHP, HTML, CSS, JavaScript, AJAX, and MySQL.
- Built secure and scalable RESTful APIs for web and mobile integration.
- Developed cross-platform mobile apps using Flutter with Android & iOS deployment.
- Implemented Firebase services, push notifications, and in-app integrations.
- Managed Play Store / App Store release process, including signing & unlisted distribution.
- Handled server & domain setup, DNS configuration, SSL, CPanel/HPanel operations.
- Worked with Google Cloud and AWS for hosting, deployment, and database management.
- Improved backend performance through optimized SQL queries and clean architecture.

Freelance Web Developer

Self-Employed | Jul 2023 – Dec 2023

- Built custom web applications using PHP and MySQL for various clients.
- Created responsive UI layouts using HTML, CSS, and JavaScript.
- Managed domain, hosting, and deployment for client projects.
- Delivered fully functional websites with ongoing support and maintenance.
